

HG501, Grip, Hand grip machine

Machine to grind handgrips into the glassplate

Complete with table, and diamond stone. The machine works with water and goes automatic to the depth you install before starting.

BS401, Ocean, Grinding machine horizontal

De horizontale machine speciaal voor het slijpen van kleine stukjes glas.

U krijgt bij deze machine een mooier slijpresultaat omdat de korrel van de band in de lengte richting van de rand loopt. Door de glas voorzichtig te bewegen krijgt U vanzelf rond randen aan het glas. U kunt ook werken met een mal zodat U perfect onder graden kunt slijpen. De bandlengte is totaal 3 mtr, slijpvlak is ongeveer 1 mtr, U kunt dus eventueel met 2 personen achter de machine staan. Zeer geschikt voor grotere hoeveelheden klein glas te slijpen. De machine heeft een water aansluiting, afvoer slang en een motor op 220 of 380 volt.

RS801, Roller, Extra roller table

A frame with rollers, to use by your grinding machine when you have bigger glass plates.

Also very good to use as install help when you use 2 pieces. The rollers are adjustable in high, length 1 mtr.

T000, Tripoli, turn table for nature stone

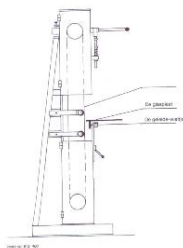

A pneumatic turn table for heavy nature stone plates. Very good to use by polish machines.

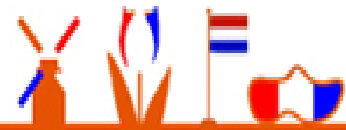

BS400 River, Grinding machine

The vertical band grinder without table.

You grint on the free band making it suitable for fast grinding and polishing of smaller glass or special shapes. By changing the grinding belt you can also polish, by moving the rollers can also grint under different angles. Comes with level rolls, water tank and circulation pump.

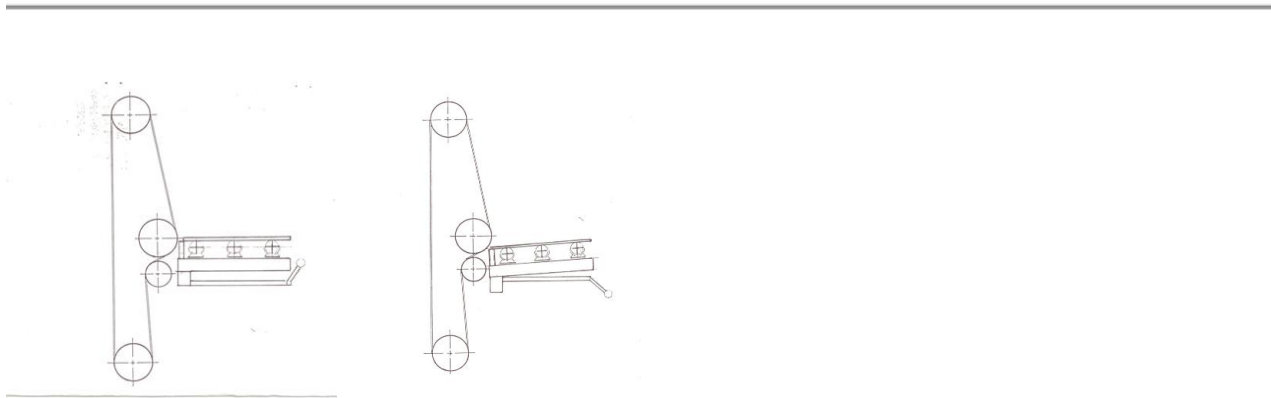

BS402, Waterfall, Grinding machine with table.

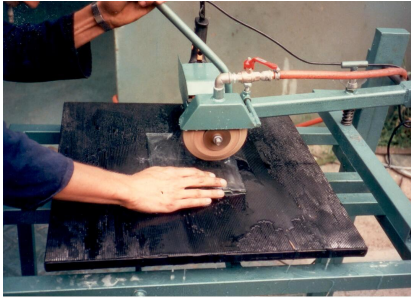

The vertical band grinder with table for standard grinding work, also suitable for round glass. The table can move so you can grind the 45 degrees side without having to lift. By exchanging the grinding band you can also polish. Equipped with level rolls, water tank and circulation pump.

2640, Star, Star machine

Machine to grind stars into the glass plate

Complete with table, and small diamond stone.
